

Are you concerned about your heating bills this winter?

Don't wait until the weather gets colder!
Call us now for more information.

Upper Arkansas Area Council of Governments' Home Repair Loan Program can help make your home more energy efficient and save you money. Homeowners who qualify for the program can get a low-interest loan to help improve the energy efficiency of their home, lower heating bills, and save hundreds of dollars a year. Let us help make your house feel like a home again. We provide assistance with the bidding process and project oversight, as well as handle the paperwork for you.
